المساويد بيا ا Curaistency of Locofocoism Weavail our arrives of the following striking illustration of lo cofoco humbuy and inconsistency, from the Portland Advertiser The facts hereidisclosed in reference to the glaring income sterkey of the locofoso leaders with respect to banks may fair ly be taken as a sample and pummentary on the rinconsistencias generally between the professions and prictices of the Laders. And we are mistaken if the mand of professing one thing to the people to grant leir confidence, and then abusing that sind ice "in practice, does not work its own cure by causing the mess of the people to distrust and dismiss them

LOCO POCO "RAG BARONS

We have before announced a receipt of the List of Stockholders of the sever I Banks in Maine The document before us is rich in is information and be its official witness of the hy pocrisy of some of the leading Loco Foco partieans in Maine We have but one of ject in re ferring to this subject so offen and that is, an expusure of the dishonesty of nen and a party who while they raise a tremendous cry against Corporations, and especially Banking Corpora tions, are, at the some time d gall in their power to encourage those mail attens they so fre quently condemn. We are ourselves the friends of Banks, and we believe them to be as necessary ry for the prosperity of the country as almost any of the institutions we are ble-sed with under our free form of Government We teheve that cer tain ruin would overtake us without them, and so, believing, we ever have advocated and probable [ever shall advocate, their existence, when controlled by proper legislation and made fully accountable and responsible for any mal adminis ret on of their affire. So believing, we cannot a leadly look upon the uncalled fr and unjust warfare made against them by politicians, for partisan purposes. We think it but right to expose the hypocrisy of a party which aims principally, t destroy the currency of the country. We wish to show that class of men whose prejudices are appealed to, rather thin their understandings whence arises this hostility. We believe it tu bed our duty to worn them of the deceit practised in high places, with a view to deceive them 10 a word by comparing the faith of men with the works of men we wish to show that we have a class of men who only keep the word of promise to the ear, in order to break it to the hope Mr Ben ton unwittingly has told us the chuse of this and in several articles illustrating Loco Fuco princi ples in the National Government, which we shall publish next week, we shall show among other times, the motive and the effect of this histility to the Banks. At present, our purposes are served by publishing a kind of testimony which may answer both the argument of the State paper at Augusta, that Banking Corpora TIONS ARE DANGEROUS TO LIBERTS, and the more important argument of the official Globat Washington, and its revolving sateil tes all over the Union, as to who are, and who are not, Rag Barons, 'Mono polists 'Aristocrats, 'Paper Money Men Bink Ruffirns, 'Hire lings of Banks 'Bank hought Federal sts.
